

Convenience Store:

Subject: Meet KORONA POS

Dear [Client's Name],

I wanted to send along some introductory information about our preferred point of sale partner, KORONA POS. They were one of the first cloud-based solutions on the market and are great to work with.

First, KORONA POS offers advanced inventory and reporting features, which makes it a particularly great solution for convenience store businesses that have a lot of inventory. But their pricing is flexible so merchants can pay for what they need.

We also love working with them because of their support team. They are really easy to get ahold of, friendly to speak to, and have won multiple industry awards for this part of their service.

KORONA POS also integrates with a wide variety of additional software, like SkanData and various loyalty programs. And they have an open API if you want to do any custom development. Plus, they have some important features for convenience stores, such as age verification prompts, bundled deals, and marketing tools.

You can check them out here: koronapos.com. I also highly recommend checking out some customer testimonials on their [YouTube channel](#). And you can visit some of their third-party reviews below:

- [Capterra](#)
- [Sourceforge](#)
- [Software Advice](#)
- [G2](#)
- [Fit Small Business](#)

Hopefully this was a good starting point. Please don't hesitate to reach out with any questions or if you want to get a demo scheduled with their team.

Thanks!
