

Liquor StorePOS System

KORONA offers liquor store owners several unique features to make running your operation more efficient, helping you scale your business.

Order Level Optimization

- ▶ KORONA produces optimal order levels for each product in your inventory. Feel confident that you're ordering the right amount of each product at any given time.

Customer Loyalty

- ▶ With a built-in point-based loyalty system, users can track and reward regular customers. KORONA also integrates with Bottlecapps for a more in-depth CRM.

Handheld Inventory Tracking

- ▶ Use perpetual counts throughout the year with handheld inventory scanners. Implement more inventory efficiency to optimize ordering and pricing.

Pricing and Promotions

- ▶ KORONA makes pricing and promotions simple. Set cash breaks, mix & match, and bundled deals that are reflected in reporting and any eCommerce channels.

Purchase Orders

- ▶ Purchase orders make supplier relations easy, especially for liquor stores with multiple locations. Create purchase orders between locations, too.

Employee Permissions

- ▶ Set custom permissions by individual employee to keep your liquor store protected from costly mistakes and theft. Age verification reminders ensure that each purchase is legitimate.

In-Depth Reporting

- ▶ Print customizable reports that measure employee performance, product performance, sales metrics, and dozens of retail KPIs.

Stock Notifications

- ▶ Get custom notifications on your stock levels to help plan your ordering and promotions.

Franchise Features

- ▶ For larger operations, KORONA comes with franchise management and royalty commissions. Keep all data under one umbrella.

Included Customer Support

- ▶ Each KORONA subscription comes with full phone, chat, and email support. There are no fees, surcharges, or penalties.
