

KORONA's Winery POS Solution

The only truly all-in-one winery management software, KORONA covers each aspect of your operation.

Inventory Management

- ▶ Keep track of all your cases, kegs, casks, and bottles with robust inventory management software. And do with wholesale, winery retail, and online sales.

bLoyal Integration

- ▶ KORONA partners with bLoyal to bring wineries a single solution with everything they need to run their shipping, in-store retail, restaurant, events, CRM, and more.

Hospitality Features

- ▶ With event management and hospitality features, wineries can run ticketed operations, tasting rooms, bars, and restaurants.

Shipping and Loyalty

- ▶ Manage your bottle case shipments across state lines with full compliance. And use bLoyal's CRM to track and reward your best customers.

Multi-Location Management

- ▶ No matter the size of your operation, KORONA has custom features to fit any operation. And they help you scale.

Special Pricing and Discounts

- ▶ Set special pricing and inventory levels for case breaks, bundled gift sets, or any promotion you'd like to run.

Pairings and Descriptions

- ▶ Add pairing suggestions and product descriptions in the POS to keep your staff and guest informed about the product and to help cross-sell.

Open API

- ▶ For vineyards and wineries that need more software development, KORONA comes with an open API that allows each business to build custom integrations.

Processing Agnostic

- ▶ The software integrates with all major credit card processor so wineries can find the best solution for their business without worrying about extra fees or lengthy contracts.

Full Customer Support

- ▶ KORONA's product specialists are available 24/7 for questions and troubleshooting. They also help you get set up and trained beforehand. All at no extra cost and for the lifetime of your subscription.
